

The logo for Trust power is centered in the upper left. It consists of the word "Trust" in a large, white, sans-serif font, with "power" in a smaller, white, sans-serif font below it. The text is overlaid on a large, multi-colored circular graphic that is being worked on by several small human figures. One figure is on a ladder, another is holding a rope, and others are standing around the base of the circle. The background is a solid purple color with a subtle gradient.

FY-19 EBITDAF Market Guidance Update

Trustpower reiterates it's previously advised EBITDAF guidance range of \$215m - \$235m for the FY-19 financial year.

The forecast is underpinned by the following assumptions:

- Long run average generation volumes for the remainder of the year
- NZ Wholesale prices are in line with current forward pricing for the remainder of the year
- Average temperatures and average electricity consumption for the remainder of the year
- Total customers increase to between 255,000 and 260,000 including circa 95,000 telco customers

Key Highlights

- Q3-19 saw 82% of all new customer acquisitions take multiple products, with an 7.3% increase year-on-year of total customers taking 2+ products to 105,000.
- Total retail electricity sales volume was 2.1% below the pcp for Q3-19, with Mass Market/SME gaining 5.6%, and C&I decreasing 8.1%.
- Customer churn for those who take our telco-bundled products was again stable in Q3-19, and continuing to track well below those who only take energy-only products.
- 59% of all our broadband customers are now on fibre, up from 47% same time last year, and 56% last quarter. 86% of our telco customers are now taking medium and fast speed plans (100+MB download). Up from 67% this time last year.
- 50% of all customer interactions are now handled without requiring our workforce.

- Q3-19 electricity generation volumes were above long-run average, and above the pcp by 1.4%
- Our ability to extract higher than TWAP was evident in the last quarter, with a GWAP/TWAP ratio of 1.05.
- Asset availability averaged 96% over the quarter.

- National Controlled Storage recovered during Q3-19 to be sitting at 83.4% of the 10-year average on 31st December.
- Forward ASX prices rose for every forward year over the quarter, particularly short-dated strips.
- National demand fell 1.7% quarter-on-quarter. CY-18 ended flat with CY-17.

- Signed an agreement with Spark to allow the sale of Mobile and Fixed Wireless products to new and existing customers, with no material capital investment required.
- Announced and paid an interim (17c) and special (25c) dividend.
- Successful completion of the refurbishment of two generators at the Coleridge Power Station.
- Rebuilt our Sydney PoP's – increasing our bandwidth and peering opportunities. Also replaced and upgraded our storage and compute, increasing our capacity and lowering our costs.
- AMI smart-meter deployment commenced.

Glossary

Term	Definition
ACPU	Average Cost Per User. Direct costs (COS) only – does not include CTS
AMPU	Average Margin Per User – difference between ARPU and ACPU
ARPU	Average Revenue Per User. Includes acquisition capitalisation and amortisation
Asset Availability	Total hours asset(s) available or operating/Total hours in month. Excl planned outages.
Bundled Customer	Customer that has 2+ products with Trustpower
C&I	Commercial and Industrial customers
Churn Rate	Annualised % of customers leaving Trustpower.
Customer Contact	A channel agnostic customer interaction where service has been provided
E-Bill	Receives their bill electronically rather than post
EOM	End Of Month

Term	Definition
First contact resolution (FCR)	Where the customers reason for calling is resolved at first point of contact. Does not count if they contact again within 14 days.
FTE	Full Time Equivalent
Gross Margin	Gross Revenue – Direct Cost of Sales
GWAP	Generation Weighted Average Price – Average revenue per unit
GWh	Gigawatt hour(s) – unit of energy
Input	Broadband connections segmented by delivery type
ISP	Internet Service Provider
KCE	King Country Energy
LY	Last year
LWAP	Load Weighted Average Price – Average cost of energy per unit for the retail business

Glossary

Term	Definition
Main lakes	Waipori, Cobb and Coleridge schemes.
Market Share	Total Trustpower fibre connections / total NZ fibre connections.
Mbps	Megabytes per second (measure of internet data transfer speed)
MM	Mass Market customers
MWh	Megawatt hour(s) – unit of energy
Netflix Ranking	Published monthly on ispspeedindex.netflix.com/country/new-zealand
NI	North Island
OPEX	Operating expenditure
Pcp	Prior corresponding period
PoP	A physical location that houses telco equipment
Recordable Injury	Lost Time and Medical Treatment Injuries

Term	Definition
Rev	Revenue
SI	South Island
SME	Small-Medium Enterprise
Speed	Slower: <100 Mbps, Medium: 100 Mbps, Fast: >100 Mbps
TRIFR	Total Reportable Injury Frequency Rate. Measured per 200,000 hours.
TWAP	Time-Weighted Average Price
Var	Variance
Virtual Channel Customer Satisfaction	The satisfaction rating of digital channels that are non-staffed (including Bot , App and Virtual Agents)
Virtual workforce contact	Contact not handled by a person – e.g. Chabot, self service.
YoY	Year-On-Year
YTD	Year-To-Date

The logo for Trust power features the words "Trust" and "power" stacked vertically in a white, sans-serif font. The text is centered within a cluster of four overlapping circles in shades of green, blue, purple, and orange. The background is a dark purple gradient with a large, faint circular shape behind the logo.
